

NEWS ANNOUNCEMENT

AGILE NETWORK TME IS SELECTED AS FEDEX® DIAMOND COMPATIBLE 2017, AWARDED TO FEDEX® COMPATIBLE SOLUTIONS FOR SUPPORTING ENTERPRISE TRANSPORTATION MANAGEMENT WITH ALL FEDEX DOMESTIC & INTERNATIONAL SHIPPING SERVICES

February 6, 2017 – Enterprise transportation management solution provider, Agile Network announced its Agile Network TME multi-carrier shipping software was selected a FedEx® Diamond Compatible 2017 Solution by FedEx®. Agile Network solutions continue to build upon their FedEx Compatible legacy, having earned Diamond Status as part of the FedEx Compatible Solution Program with FedEx Diamond Compatible in 2014, 2015, 2016 and now are excited to announce their latest FedEx Diamond Compatible 2017 selection. FedEx Compatible solutions are designed to replace disparate manual processes and poorly or non-integrated shipping machines and carrier provided software.

This distinction is awarded only to solutions demonstrating years of compatible integrations with the latest FedEx® technologies and FedEx® Services. Designed to help organizations identify qualified, third-party shipping solutions, The FedEx® Compatible Solution program requires software developers be up-to-date on current software for FedEx® Ship Manager Server or FedEx® Web Services, and also maintain high levels of customer satisfaction and retention. Of the hundreds of shipping solutions available, only a few achieve FedEx® Diamond Compatible distinction. To learn more, visit <http://www.fedex.com/compatible>.

As a FedEx® Compatible Diamond Solution, Agile Network TME provides shippers with real-time, 100% Compatible access to hundreds of other carriers along with all FedEx® Services, including: FedEx® Ground, Express, SmartPost®, Returns, Freight and International Services such as FedEx® Electronic Trade Documents and FedEx International Ground Distribution (IGD). The TME solution allows shippers to instantly find the most convenient and cost-effective delivery service.

“Agile Network TME has been a certified FedEx Compatible solution since 2008 and is a true representation of a Compatible Diamond Tier product,” explained Donald Comer, Director of Marketing at FedEx. “Agile has been tiered every year since the Tier Program was introduced and continues to be a vital product for FedEx customers. Agile’s software provides hundreds of customer’s access to FedEx services through automation, both in the United States and now in Europe. FedEx congratulates Agile for their achievement and looks forward to continued success in the future.”

“The FedEx Compatible Program requires an exhaustive technical review and test process,” said Kevin V. Cox,

Chief Executive Officer of Agile Network. “Achieving Diamond recognition from the FedEx Compatible Program assures our customers that the integration between Agile Network and FedEx systems has been approved and that the products work together as designed. This reduces risk and improves the implementation cycles for our joint customers.” To learn more about Agile Network’s FedEx® Diamond Compatible 2017 Solution, visit <http://www.agile-network.com/fedex>

About TME

Agile Network’s Transportation Management & Execution platform, [TME](#), is multi-carrier shipping software that provides users with certified support to a global carrier network, including: [FedEx](#), TNT, UPS, DHL, USPS, Purolator, Canpar, Canada Post, DPD, Chronopost, DB Schenker, NACEX, DACHSER, GLS, Royal Mail, UK Mail, Singapore Post and hundreds of regional operators. The solution also provides a full-featured, on-premise or cloud-based shipping and transportation management platform with real-time rating and routing, pack verification, consolidation, automatic ACE filing, export document generation. Agile Network TME may be configured to operate in both attended station and ‘black box’ modes with full support for high volume material handling, automatic weighing and dimensioning, and print-and-apply systems.
